

Take your taste buds to Italy with Artisan!

Do you get confused about Italian grape varieties?

Join us on Wednesday to figure out what's what and what you like best.

We'll start with a white from Soave, a small region outside Verona in the Veneto district. Then we'll taste a Chianti from a unique region in Tuscany just north of Chianti Classico, called Chianti Colli Senesi. As we move on, we'll head to Sicily for their tasty Nero d'Avola; then we'll try a Barbera d'Alba, which is grown in the northwestern region of Italy known as Piemonte. Finally, we'll have a sweet tasty treat called Moscato d'Asti.

Head on over for an educational experience with our Italian Wine Specialist, Nick. While you expand your mind, expand your mouth with Artisan's yummy snacks. And of course, we'll have discounted bottle prices on all that we taste!

Remember to check the website for updates!
